

WELCOME to CG International Group Website

In today's business environment it is critical to compete globally, whether it be for a manufacturing company to leverage on the benefits of other countries and their resources or establishing sales into new foreign markets.

It is equally critical that your company has control of your new business environments and that your important principles and values are maintained.

CG International provides support services to specifically fit your required scope and your budget, with the flexibility that you need. We do this by providing different levels of support at different times during your business activities. This means;

- If you have a manager who is responsible for an activity we can provide support to him.
- You may require a manager to co-ordinate contractors and suppliers to complete a project.
- You may wish to manage your business from overseas and do not have the need for a full complement of staff, we can provide the resources as and when needed.
- We can manage all the necessary requirements to setup your new business with minimal effect on your valuable time

CG International enables you to focus on your growing business. Our services save you time and money during this phase of expansion. CG International is the partner you can trust that will give you the confidence and ability to embark on your global expansion plans.
